

TruElectrostatic™ Disinfectant Sprayer with EPIX Charge Detect™ Technology

EMist™ EPIX360

For safer environments, healthier spaces, healthier people.

The EPIX360 is the most effective handheld electrostatic disinfectant sprayer in the world. Built to work, this cordless sprayer is powerful, durable, and provides breakthrough application performance - more coverage, less waste, and better results. Simply fill the 8-ounce tank (optional 13.oz tank available) with a safe EPA-approved water-soluble disinfectant, pull the trigger, and the EPIX360 goes to work laying down an even, uniform and wraparound layer of germ-killing power up to 4,000 high-touch point sq.ft (using 8.oz tank). Plus, with the advanced EPIX Charge Detect™ Technology, grounding is never an issue. And, unlike other electrostatic equipment, the EPIX360 works flawlessly and consistently, greatly improving transfer efficiency and eliminating shock and electrical hazards.

Lightweight at just 2.45 pounds bare and only 3.0 pounds fully loaded when equipped with the 8.oz tank, the EPIX360 is lightweight and easy to operate. It's the most compact high-performance electrostatic sprayer you can get your hands on.

A complete system includes sprayer, 8.oz tank, two batteries, charger, carrying case, training toolkit and 1-year warranty.

TruElectrostatics. TruDisinfection™. Intelligent Electrostatic Sprayers.

1 TruTechnology: EPIX Charge Detect

The electrostatic sprayer continuously detects the polarity of the user and the equipment and adjusts automatically so that grounding is never an issue. The discharged droplets wrap around surfaces. This wraparound effect creates an even, consistent and comprehensive coverage of chemical, reduces chemical use, and provides superior results.

3 TruCharge: Best Performance

Electrostatic sprayer polarity matters. Most environmental surfaces have a negative or neutral charge (the earth itself is negative). Per the EPA, electrostatic sprayers should impart a positive charge so that the positively charged disinfectant droplets are attracted to targeted negative or neutral surfaces. Positively charged droplets increase droplet adhesion and wrap reducing chemical and labor costs.

5 TruAssurance: User Safety

Per the EPA, median droplet size should be greater than 40 microns. Droplets must be large enough to resist evaporation and drift but small enough that the droplets can change their trajectory when it comes close to a target. Most sprayers produce droplets of < 40 microns making them highly drift-prone and increasing user inhalation concerns. EMist droplet size is 76 microns.

2 TruConfidence: Patented. Proven. Trusted

When you're dealing with deadly pathogens, you want to make sure that the company you're buying equipment from is reputable, experienced, and trusted. EMist systems are patented, used during the 2014 Ebola crisis, and developed by electrostatic industry veteran Mike Sides, who frequently works with the DOD, Naval Entomology Center of Excellence, USDA, and WHO

4 TruDesign: Safer Operation

When spraying big areas, big buildings, or tight spaces, a cordless sprayer allows you to maneuver and move about freely. EMist sprayers are ergonomic, lightweight, and cordless. That means you can take the sprayer to where the work needs to be done rather than relying on wall outlets at the work site. Portability is a clear advantage for any user who needs to go where the work is to get the job done right.

6 TruCost: Lower Total Cost of Ownership

Based on the need to disinfect large areas, manual application of disinfectants is a thing of the past. Electrostatic application is the new normal. Customers who use our systems typically see 25% to 45% labor savings and 35% to 50% chemical savings. Competitively priced, advanced and patented electrostatic technology, and proven performance provide an overall lower total cost of ownership.

System Includes

- Sprayer
- (1) 8 oz. Tank
- 2 Batteries
- Charger
- Carrying Case
- Training Toolkit
- 1-Year Warranty

The EPIX360 is built around our proprietary EPIX Charge Detect™ Technology. Built to work, this electrostatic sprayer is powerful, durable, and provides breakthrough application performance - more coverage, less waste, and better results. Simply fill the tank with any water-soluble chemical, pull the trigger and the EPIX360 lays down an even, uniform and wraparound layer of your preferred disinfectant up to 4,000 high-touch point square feet with 8.oz tank

Product Specs

Model Number	EPIX360-HH
TruElectrostatic™	Yes
High-touch Coverage	8.oz - 4,000 high-touch point sq.ft., 13.oz - 6,500 high-touch point sq.ft.
Dimensions	13" X 8.5" X 3.5"
Weight (loaded)	3.0 lbs (1.36 KG)
Weight (empty)	2.45 lbs (1.11KG)
Weight (shipping)	16.45 lbs (7.46 KG)
Nozzle	DHL LARGE
Airflow Velocity	1742 FPM, 31.9 KPH
Spray Pressure	75 PSI, 517.11 KPA
Flow Rate	1.011 GPH, 3.827 LPH
Droplet Size	76 microns
Tank Capacity	8.oz (236.59 ml), Optional 13.oz (384.45 ml) tank available

Chemicals	Any water-soluble
Spray Distance	24-36"
Cordless	Yes
Polarity	Bipolar (+ and -)
Grounding	Not required
Power Supply	120V
Battery(s)	14.4V Lithium Ion (2)
Charger	14.4V
Battery Life	20 (8 oz.) Tanks on single charge
Warranty	1-Year Limited Warranty
Complete System Includes	Sprayer Tank, 2 Batteries, Charger, Carrying Case, Training Toolkit and 1-Year Warranty
